

## Water Treatment Coal Based Activated Carbon For Chemicals Granular Activated Charcoal

### Our Product Introduction

#### Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

#### Product Specification

- CAS No: 7440-44-0
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: Coal Based Activated Carbon For Chemicals, Water Treatment Coal Based Activated Carbon, Coal Based Granular Activated Charcoal

## Product Description

### Coal Based Granular Activated Carbon / For Water Treatment Chemicals / Black

Coal based granular activated carbon is suitable for deep purification of drinking water, industrial water, wastewater and adsorption for gas separation.

Application areas: Coal-based crushed activated carbon is widely used in water treatment, gas purification and industrial waste gas treatment due to its unique pore structure and adsorption properties. For example, in water treatment, it can effectively remove harmful substances in water, such as heavy metals and organic pollutants, and improve the safety of water quality. In gas purification, coal-based crushed activated carbon can be used in the purification of industrial emissions, effectively removing harmful gases and odors to protect environmental health.

It is also widely used in the decolorization and deodorization of sugar, pharmaceuticals, alcohol and beverages, and is generally used in organic solvent recovery and precious metal refining.
