

## Gas Separation Coal Based Activated Carbon Granulated Activated Charcoal

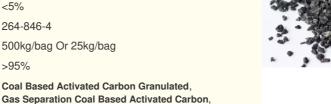

## Basic Information

- Place of Origin:
- Datong, Shanxi, China
- Brand Name:
- Minimum Order Quantity: 1
- Packaging Details:
- Payment Terms:
- Supply Ability:
- Xinyue 1 Ton
- 500kg/bag , 25kg/bag
- T/T
- 100,000 Ton/Tons per Year

## **Product Specification**

CAS No:	7440-44-0
<ul> <li>Purity:</li> </ul>	99.99%
• Type:	Adsorbent
Iodine Number:	800-1200mg/g
• Ash:	<12
Moisture:	<5%
• EINECS No:	264-846-4
Package:	500kg/bag Or 25kg/bag
• Hardness:	>95%
Highlight:	Coal Based Activated Carbon

Gas Separation Granulated Activated Charcoal

## **Product Description**

Granulated Activated Carbon / Wastewater Treatment / Gas Separation

Scope of application:

(1) Water treatment: Granulated activated carbon is widely used in drinking water and wastewater treatment and is particularly effective in removing organic pollutants, chlorides, odours and colours from water.

(2) Air purification: Granulated activated carbon is used for the adsorption of harmful gases and odours such as formaldehyde, benzene and other VOCs in industrial emission control and indoor air purification.

(3) Food Processing: In the food and beverage industry, Granulated activated carbon is used to remove substances with poor colour and taste, as well as certain hazardous substances, helping to improve product quality.

(4) Pharmaceutical and chemical industries: Granulated activated carbon is used in pharmaceutical manufacturing and chemical processes to purify and refine products and remove unwanted impurities.
