Product Description

Carbon Granules / Coal Activated Carbon / Clarification / Water

Key Advantages

- (1) High adsorption capacity: Carbon Granules has an extremely high surface area due to its porous structure, which allows it to effectively adsorb a wide range of dissolved organic compounds (DOCs), heavy metals, and other harmful substances from water.
- (2) Improved taste and odour: Carbon Granules improves the taste of drinking water by effectively removing undesirable tastes and odours, such as those produced by chlorine and organics.
- (3) Versatility : Carbon Granules can be used in a variety of water treatment systems, including slow sand filters, rapid filtration systems and upflow or downflow filtration systems.
