

Black Coal Based Raw Activated Charcoal Powder Used In Wastewater Treatment

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 7440-44-0
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Black Raw Activated Charcoal Powder, Coal Based Raw Activated Charcoal Powder, Activated Charcoal Used In Water Treatment**

Product Description

Raw Coal Powder Activated Carbon / Used In Wastewater Treatment / Black

Application areas: Raw coal powder activated carbon is widely used in water treatment and air purification due to its good adsorption performance and reasonable cost.

In water treatment, it can effectively remove harmful substances in water such as heavy metals and organic pollutants, and improve the safety of water quality.

In air purification, raw coal powder activated carbon can be used in the purification treatment of industrial emission gas, effectively removing harmful gases and odors, and protecting environmental health.

Advantages: Raw coal powder activated carbon has a developed pore structure and a large specific surface area, which enables it to effectively adsorb small molecules in the air, such as formaldehyde, benzene and other harmful gases, as well as impurities in the water, such as chlorine and organic matter.
