

## Household Black Activated Charcoal For Odor Removal Water Purification

### Our Product Introduction

#### Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

#### Product Specification

- CAS No: 7440-44-0
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Black Activated Charcoal For Odor Removal,  
Household Activated Charcoal For Odor  
Removal**  
,  
**Black Activated Charcoal For Water Purification**

## Product Description

Activated Carbon Water Purification Technology / Water Purification / Black

### Application fields and functions

**Household water purification:** In household water purification systems, activated carbon is widely used in filtration jugs, water purifiers and other equipment to remove residual chlorine, odors and harmful organic substances from tap water, ensuring the safety and taste of drinking water.

**Municipal water treatment:** In municipal water treatment plants, activated carbon is used to further purify water that has already undergone preliminary treatment, and is particularly effective in coping with seasonal increases in organic pollution loads, such as the algal bloom season. Activated carbon treatment effectively removes organic pollutants from the water and improves the safety and stability of the water supply.

**Industrial Wastewater Treatment:** In the industrial field, activated carbon is not only used in wastewater treatment to remove harmful substances and meet the discharge standards, but also used in the deep treatment of water reuse systems to help companies save water and reduce environmental pollution.
