

Exhaust Gas Purification Activated Carbon Adsorption / Activated Charcoal Powder

Our Product Introduction

for more products please visit us on activatedcarbon-charcoal.com

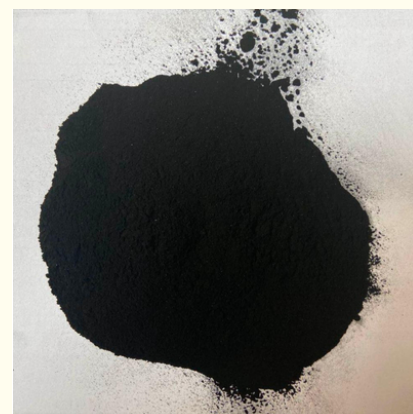

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: Gas Purification Activated Carbon Adsorption,
Exhaust Gas Activated Carbon Adsorption,
Gas Purification Activated Charcoal Powder

Product Description

Activated Carbon Powders / Activated Carbon Adsorption / Exhaust Gas Purification

Food and beverage industry: Activated carbon powder is widely used in the purification treatment of food and beverages, such as colas, fruit juices, and drinking water treatment due to its good adsorption performance and fast filtration speed.

Water treatment: Activated carbon powder is widely used in tap water treatment and sewage treatment to remove organic pollutants, pigments and odors from water and help improve water quality.

Electroplating industry: Activated carbon powder can be used for the purification of electroplating solution, the treatment of chromium plating wastewater, the treatment of cyanide-containing wastewater, and many other uses.

Garbage incineration treatment: activated carbon powder has good adsorption capacity for dioxin and other polluted gases produced by garbage incineration, so it is widely used in this field.

Exhaust gas purification: activated carbon powder can effectively adsorb harmful gases and impurities in the treatment of industrial emissions and reduce environmental pollution.

Amino acid industry: activated carbon powder is used for decolorization, purification, deodorization and removal of impurities of monosodium glutamate, phenylalanine and other amino acid products.
