

Pollutant Removal Activated Charcoal Pellets For Air Purification Water Treatment

Basic Information

Place of Origin: Datong, Shanxi, China

Brand Name: XinyueMinimum Order Quantity: 1 Ton

Packaging Details: 500kg/bag , 25kg/bag

• Payment Terms: T/T

• Supply Ability: 100,000 Ton/Tons per Year

Product Specification

CAS No: 64365-11-3
 Purity: 99.99%
 Type: Adsorbent
 Iodine Number: 800-1200mg/g

Ash: <12Moisture: <5%EINECS No: 264-846-4

• Package: 500kg/bag Or 25kg/bag

• Hardness: >95%

Highlight: Pollutant Removal Activated Charcoal Pellets,

Water Treatment Activated Charcoal Pellets,
Activated Charcoal For Air Purification

Product Description

Granular Activated Carbon / All Natural Pollutant Remover For Cleaner Air

- 1. Granular activated carbon has a high surface area and is highly porous, making it an effective adsorbent for removing impurities from liquids and gases. It is commonly used in water treatment systems, air purification systems, and industrial processes such as gas separation and solvent recovery.
- 2. Granular activated carbon is known for its superior adsorption capacity and is an important component of water treatment and air purification systems. Its porous surface effectively adsorbs impurities such as chlorine, organic compounds and common household odours.
- 3. Granular activated carbon is versatile and effective. In water treatment, it removes contaminants and improves taste and clarity, making it ideal for aquariums, home filtration systems and even industrial-scale operations. In air purification, it absorbs harmful pollutants and eliminates odours.
- 4. Not only does granular activated carbon provide a more environmentally friendly solution to filtration needs, but its durability is also cost-
