

Bulk Activated Charcoal Pellets Air Purification Activated Charcoal Industrial Use

Basic Information

Place of Origin: Datong, Shanxi, China

Brand Name: XinyueMinimum Order Quantity: 1 Ton

Packaging Details: 500kg/bag , 25kg/bag

• Payment Terms: T/T

• Supply Ability: 100,000 Ton/Tons per Year

Product Specification

CAS No: 64365-11-3
 Purity: 99.99%
 Type: Adsorbent
 lodine Number: 800-1200mg/g

Ash: <12Moisture: <5%EINECS No: 264-846-4

• Package: 500kg/bag Or 25kg/bag

• Hardness: >95%

• Highlight: Activated Charcoal Pellets Air Purification,

Bulk Activated Charcoal Pellets, Bulk Activated Charcoal Industrial Use

Product Description

Activated Carbon Pellets / Ideal For Industrial Use / Bulk Packaging Available

- 1. Granular activated carbon has a high surface area and is highly porous, making it an effective adsorbent for removing impurities from liquids and gases. It is commonly used in water treatment systems, air purification systems, and industrial processes such as gas separation and solvent recovery.
- 2. Activated Carbon Pellets are a form of activated carbon that is processed into small, uniform pellets. These pellets have a high surface area and are highly porous, making them effective for adsorption and filtration applications.
- 3. Activated carbon pellets are commonly used in water treatment systems, air purification systems, and industrial processes such as gas separation and solvent recovery.
- 4. One advantage of activated carbon pellets is their ability to be regenerated, or reactivated, after becoming saturated with impurities. This involves heating the pellets to a high temperature to remove the adsorbed impurities, allowing the pellets to be reused.
