

Natural Activated Charcoal Pellets Black Activated Carbon Grains For Food Processing

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Natural Activated Charcoal Pellets,
Food Processing Activated Charcoal Pellets,
Black Activated Carbon Grains**

Product Description

Activated Charcoal Carbon Grains / All Natural Charcoal Activated Pellets / Black

1. Activated Charcoal Carbon Grains are highly versatile and effective for various purification needs. They are designed to trap impurities in water and air, making them ideal for use in filtration systems for residential, commercial, and industrial settings. Their natural adsorption properties remove contaminants such as chlorine, heavy metals, and volatile organic compounds, ensuring that your environment is clean and healthy.
2. Application Areas: Granular activated carbon is used in a wide range of applications, including but not limited to water treatment, food processing, pharmaceutical manufacturing and environmental protection. In water treatment, it is used to remove organic impurities, chlorine and to improve the taste and odour of water.
3. Activated carbon pellets are commonly used in water treatment systems, air purification systems, and industrial processes such as gas separation and solvent recovery.
4. In the food industry, particularly sugar and fat processing, activated carbon powder is used for decolourisation and removal of unwanted impurities. In the environmental field, it is widely used in exhaust gas treatment and wastewater treatment to help control and reduce the emission of various pollutants.
