

Water Treatment Purify Granulars Activated Carbon With Different Iodine Value

Our Product Introduction

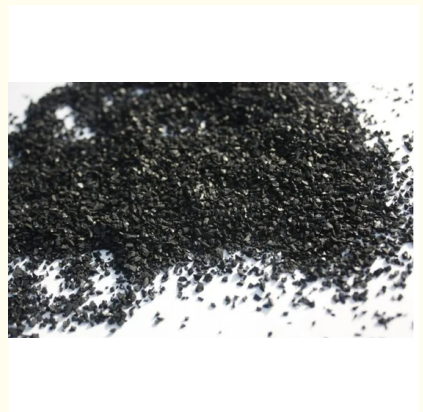

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Water Treatment Granulars Activated Carbon ,
Water Purify Granulars Activated Carbon**

Product Description

Different Iodine Value Granular Activated Carbon / For Water Treatment

Activated carbon granules effectively purify water of impurities (including chlorine, organic compounds, unpleasant tastes and odours). The natural adsorption properties of activated carbon make it an important part of water filtration systems.

Equipped with a high absorption capacity, Activated Charcoal Pellets act as natural air purifiers. They effectively trap and eliminate airborne pollutants such as dust, smoke, and harmful chemicals, creating a healthier breathing environment in homes, workplaces, and any enclosed spaces.

Versatile and adaptable, Activated Charcoal Carbon Grains cater to a wide range of applications. From home water filters and air purifiers to industrial wastewater treatment and even as a natural deodorizer in pet areas, these grains provide effective solutions across diverse contexts.
