

Pellet Wood Based Activated Carbon Industrial Wastewater Treatment Activated Carbon

Basic Information

Place of Origin: Datong, Shanxi, China

Brand Name: XinyueMinimum Order Quantity: 1 Ton

Packaging Details: 500kg/bag, 25kg/bag

• Payment Terms: T/T

• Supply Ability: 100,000 Ton/Tons per Year

Product Specification

CAS No: 64365-11-3
 Purity: 99.99%
 Type: Adsorbent
 lodine Number: 800-1200mg/g

Ash: <12Moisture: <5%EINECS No: 264-846-4

• Package: 500kg/bag Or 25kg/bag

• Hardness: >95%

• Highlight: Wood Based Activated Carbon Industrial,

Pellet Wood Based Activated Carbon, Industrial Wastewater Treatment Activated

Carbon

Product Description

Wood Based Pellet Activated Carbon / Industrial Wastewater Treatment

It is a highly efficient adsorbent material which is made from wood and converted into granular form through a specific manufacturing process. This activated carbon is widely used for a variety of purposes due to its porous structure and high specific surface area.

Applications

Water Treatment: Used in drinking water and wastewater treatment facilities to effectively remove chlorine, taste, odor, and certain harmful substances from water.

Air Purification: Used as filter media in air purifiers to adsorb harmful gases in the air such as formaldehyde, benzene and other volatile organic compounds (VOCs).

Chemical recycling: Used to recycle organic solvents in industrial processes to reduce environmental pollution and save resources.

Metal Extraction: Used in the mining industry to extract gold and other precious metals from mineral water.

Household water purifiers: Used to filter and purify household drinking water as part of a household water purification system.
