

Adsorbent Wood Activated Carbon Powder Organic Compounds For Water Filtration

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Organic Wood Activated Carbon Powder ,
Adsorbent Wood Activated Carbon Powder ,
Wood Activated Carbon For Water Filtration**

Product Description

Wood Activated Carbon Powders / Organic Compounds / Water Filtration

It is a porous adsorbent material, made from wood, with a very high surface area and adsorption capacity. This activated carbon is usually found in powder form, and its small particle size provides a larger surface area, which enhances its adsorption rate and efficiency.

Applications:

Water treatment: widely used in drinking water and wastewater treatment, effectively removing chlorine, heavy metals, organic matter and harmful gases in water.

Food Processing: Used in the processing of food and beverage for decolorization, deodorization and improvement of taste.

Air purification: used as filter material for air purifier, adsorbing harmful gases and odors in the air, such as formaldehyde and VOCs.

Metallurgy and Chemical Industry: Used in the refining of metals such as gold and platinum, and in the separation and purification of chemical products.
