

Eco Friendly Wood Powder Activated Carbon Powder For Soil Amendment

Our Product Introduction

for more products please visit us on activatedcarbon-charcoal.com

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Eco Friendly Wood Powder Activated Carbon ,
Wood Powder Activated Carbon Powder ,
Wood Activated Carbon Soil Amendment**

Product Description

Eco-Friendly Activated Carbonized Wood Powder / Soil Improvement

Characteristics

Environmentally friendly: use of sustainably sourced wood, low carbon production processes and recyclability of the product.

High specific surface area: Due to its special preparation process, it has a high specific surface area, which enables it to provide a large number of active sites during adsorption, effectively capturing and immobilising pollutants.

Economic benefits: Thanks to its excellent adsorption properties and renewability, this activated carbon can help organisations to reduce their long-term operating costs for purification and filtration, while providing environmental benefits.

Safety: As a physical filtration material, it does not involve chemical reactions and therefore produces no harmful by-products during use, guaranteeing a safe application.

Wide range of applications: Whether in water treatment, air purification or other industrial applications, this activated carbon can provide efficient solutions to meet the needs of different industries.
