

Black Powder Activated Carbon For Wood Flour / Filtration Material / Wastewater

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Black Powder Activated Carbon,
Wastewater Powder Activated Carbon**

Product Description

Activated Carbon Black For Wood Flour / Filtration Material / Wastewater

Water treatment: It is used in water treatment to remove organic compounds, residual chlorine, odours and colours, and is a key material in the preparation of high quality drinking water and industrial water.

Food Processing: In food and beverage processing, it is used to remove unwanted colours and flavours, improve product quality and meet food safety standards.

Air Purification: It can be used as a filter material for air purifiers to effectively adsorb harmful gas molecules indoors and outdoors, such as formaldehyde, benzene and other VOCs, to improve the air quality of living and working environments.

Chemical recycling: In the chemical production process, it is used to purify and recycle valuable chemicals to reduce the waste of resources.

Environmental protection: In environmental engineering, it is used in soil remediation, wastewater treatment, etc. to help remove harmful substances and protect the ecosystem.
