

Air Purification Activated Organic Charcoal Black Powder For Deodorization

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Air Purification Activated Organic Charcoal,
Deodorization Activated Organic Charcoal,
Organic Activated Charcoal Black Powder**

Product Description

Organic Activated Charcoal / Activated Carbon For Effective Deodorisation

It's a type of activated carbon that is produced from organic materials such as wood, coconut shells, and other plant-based substances. It is known for its ability to adsorb impurities from liquids and gases, making Application.

Water treatment: It is used in water treatment to remove organic compounds, residual chlorine, odours and colours, and is a key material in the preparation of high quality drinking water and industrial water.

Air Purification: It can be used as a filter material for air purifiers to effectively adsorb harmful gas molecules indoors and outdoors, such as formaldehyde, benzene and other VOCs, to improve the air quality of living and working environments.

Environmental protection: In environmental engineering, it is used in soil remediation, wastewater treatment, etc. to help remove harmful substances and protect the ecosystem.
