

Origin Coal Activated Carbon / Activated Black Charcoal Powder For Air Purification

Our Product Introduction

for more products please visit us on activatedcarbon-charcoal.com

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: Coal Activated Carbon For Air Purification,
Coal Activated Black Charcoal Powder,
Activated Black Charcoal Powder

Product Description

Coal Origin Activated Carbon Powder / Activated Carbon For Air Purification

Water treatment: Coal-based activated carbon powder is used in water treatment plants, sewage treatment plants and industrial wastewater treatment to adsorb organics, chlorides and other impurities in water to improve water quality and meet drinking water standards or regulatory requirements.

Chemical industry: used as catalyst carriers for loading precious metals such as palladium and platinum to participate in chemical reaction processes. Meanwhile, it is used in solvent recovery and gas purification to improve the efficiency of chemical production and environmental protection.

Metal extraction: plays a key role in gold extraction and other precious metal recovery processes by adsorbing metal-containing solutions, which are then recycled for processing.
