

## Wood Powder Activated Carbon Highly Efficient Purification For Water Treatment

### Our Product Introduction

#### Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

#### Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: Powder Activated Carbon Water Treatment, Powder Activated Carbon Purification, Wood Activated Carbon Purification

## Product Description

Activated Carbon Powder Made From Wood / Highly Efficient Purification Is Possible

Water treatment field: wood-based activated carbon can be used in water treatment to remove harmful chemicals and odours in water, such as chlorine and organic pollutants, which is one of the key materials to ensure the safety of water quality.

Gas purification field: It is used in industrial emissions and indoor air purification to effectively remove harmful gases and volatile organic compounds (VOCs) and improve air quality.

Food and beverage industry: used in food processing and beverage production, mainly for decolourisation and removal of unwanted tastes and odors to ensure product quality and taste.

Metal Extraction: plays a key role in gold extraction and other precious metal recovery processes by adsorbing metal-containing solutions, which are then recycled and processed.
