

Wood Granular Activated Carbon Organic Pellet Activated Carbon For Environmental Cleaning

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Granular Activated Carbon Organic, Environmental Granular Activated Carbon, Wood Pellet Activated Carbon**

Product Description

Wood Pellet Activated Carbon / Organic Activated Carbon For Environmental Cleaning

Wood pellet activated carbon has a high surface area relative to its volume, which provides numerous sites for adsorption.

It typically comes in the form of small pellets, which can be easily handled and packed into adsorption systems.

Adsorption capacity:

Due to the porous structure of wood pellet activated carbon, it can effectively adsorb a wide range of substances, including gases, liquids and dissolved solids.

It removes impurities such as chlorine, pesticides and organic compounds from water and also captures harmful gases and odour from the air.
