

Gas Purification Activated Carbon Filtration Activated Charcoal Industrial Use

Our Product Introduction

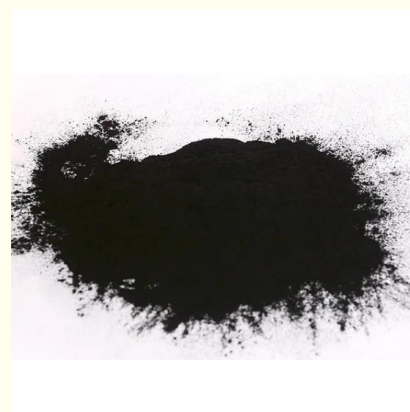

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: Gas Purification Activated Carbon Filtration,
Industrial Activated Carbon Filtration,
Filtration Activated Charcoal Industrial Use

Product Description

Industrial-Use Activated Carbon Filtration / Purification Of Gases

Application Areas:

Water treatment: In power plants, chemical plants and other industrial facilities, activated carbon filtration is used to remove harmful substances from water, such as organic pollutants, residual chlorine and heavy metal ions, to ensure that the water quality meets production requirements.

Air purification: Activated carbon filtration systems are used in industrial environments to reduce harmful airborne gases and odours, for example in paint shops and chemical production areas.

Wastewater treatment: Industrial wastewater is often treated with activated carbon before discharge to reduce the concentration of pollutants in it and meet environmental regulations.

Food and beverage processing: Activated carbon filtration is used in the food and beverage industry to improve the purity and taste of products, e.g. to remove colours and impurities from syrups.
