

Columnar Industrial Activated Carbon Chemical Production Activated Carbon Adsorbent

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: Columnar Industrial Activated Carbon,
Adsorbent Industrial Activated Carbon,
Columnar Activated Carbon Adsorbent

Product Description

Columnar Activated Carbon / Activated Carbon Adsorbent / Chemical Production

Applications of Columnar Activated Carbon:

Gas Phase Adsorption: Columnar activated carbon is extensively used in gas masks, air purifiers, and industrial ventilation systems for the removal of toxic gases, odors, and volatile organic compounds (VOCs). Its shape and size make it suitable for holding in fixed beds through which gases can pass, ensuring maximum contact and adsorption efficiency.

Air Purification in Special Environments: Its ability to adsorb a wide range of gases and compounds makes columnar activated carbon ideal for use in specialized environments like clean rooms, hospitals, and laboratory facilities where maintaining specific levels of air purity is crucial.
