

Black Industrial Activated Carbon Powder For Water Quality Improvement

Our Product Introduction

for more products please visit us on activatedcarbon-charcoal.com

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Black Industrial Activated Carbon,
Water Quality Industrial Activated Carbon,
Black Activated Carbon Powder**

Product Description

Activated Carbon Powder For Industrial / Water Quality Improvement

Characteristics:

High specific surface area: industrial activated carbon has a huge specific surface area of hundreds or even thousands of square metres per gram, providing a large number of adsorption sites.

Excellent adsorption performance: it can effectively adsorb organic pollutants, heavy metals, pigments and other harmful substances in gases or liquids.

Application Areas:

Water treatment: in water treatment, activated carbon adsorbent columns are used to remove organics, residual chlorine, odours and colours from water to ensure that the water quality meets industrial or drinking water standards.

Air purification: In air purification, activated carbon adsorbent columns are used to remove harmful gases, volatile organic compounds (VOCs) and other pollutants from the air to improve the working environment and indoor air quality.

Chemical purification: In chemical production, activated carbon adsorbent columns are used to purify chemicals, remove impurities and by-products, and improve product quality.
