

Air Purification Industrial Activated Carbon Granules For Tap Water Purification

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Industrial Activated Carbon Granules,
Tap Water Industrial Activated Carbon,
Industrial Air Purification Activated Carbon**

Product Description

Activated Carbon Granules For Industrial / Purification Of Tap Water

Industrial activated carbon granules are adsorbent materials designed for industrial applications and are supplied in granular form with high mechanical strength and excellent adsorption properties.

Application Areas:

Water treatment: widely used in the purification of drinking water, wastewater and industrial water, it can remove impurities, colours, tastes and harmful substances from water.

Air purification: used in industrial environment to remove harmful gases, odours and VOCs in the air, improve the working environment and indoor air quality.

Chemical product purification: used in chemical production to purify chemical products, remove impurities and unwanted by-products, and improve product quality.
