

Wastewater Treatment Fine Industrial Activated Carbon High Surface Area Activated Carbon

Our Product Introduction

for more products please visit us on activatedcarbon-charcoal.com

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: Wastewater Treatment Industrial Activated Carbon
, Fine Industrial Activated Carbon,
Industrial High Surface Area Activated Carbon

Product Description

High Surface Area Activated Carbon Powder / Industrial Wastewater Treatment

Features and Benefits

High specific surface area: up to thousands of square meters per gram, providing more adsorption sites and enhancing adsorption capacity.

Excellent adsorption properties: effectively adsorbs organic compounds, heavy metals and other contaminants from gases and liquids.

Fine particle size: As a powder, it provides a faster adsorption rate because pollutants can more easily reach the surface of the activated carbon.

Wide range of applications: Suitable for use in air and water purification systems, chemical recycling, pharmaceutical and food processing, and many other areas.

Customizability: Its pore size distribution and surface chemistry can be adjusted to meet specific needs.
