

## Contaminants Removal Wastewater Treatment Activated Carbon Purification

### Our Product Introduction

#### Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

#### Product Specification

- CAS No: 64365-11-3
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Contaminants Removal Wastewater Treatment Activated Carbon**  
,  
**Wastewater Treatment Activated Carbon Purification**

## Product Description

High Quality Activated Carbon For Wastewater Purification / Removal Of Contaminants

### Application areas

Industrial wastewater treatment: This activated carbon is widely used in wastewater treatment in chemical, pharmaceutical, printing and dyeing industries, which can effectively remove pollutants in wastewater and meet the emission standards.

Drinking water purification: the activated carbon can also be used in drinking water purification treatment to remove odour, pigment and trace harmful substances from water and improve water quality.

Groundwater remediation: In groundwater pollution remediation projects, activated carbon can be used as an adsorption material to remove pollutants from groundwater and restore water quality.

Waste gas treatment: besides waste water treatment, activated carbon can also be used in waste gas treatment to adsorb and remove harmful gases in the air and improve air quality.
