

Adsorption Wastewater Treatment Activated Carbon Media Filtered Tap Water

Our Product Introduction

for more products please visit us on activatedcarbon-charcoal.com

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: Wastewater Treatment Activated Carbon Media,
Adsorption Wastewater Treatment Activated Carbon

Product Description

Activated Carbon Media For Wastewater Treatment / Filtered Tap Water

Application areas

Adsorption of organic pollutants: activated carbon can effectively adsorb organic pollutants in wastewater, such as phenols, benzene, petroleum and other organic compounds, so as to purify the water quality.

Removal of heavy metals: activated carbon also has a certain adsorption capacity for heavy metal ions such as lead, mercury, cadmium, etc., which helps to reduce the heavy metal content in wastewater.

Decolourisation: For wastewater containing pigment, activated carbon can remove the pigment and make the wastewater clear and transparent.

Deodorisation: activated carbon can also adsorb odorous substances in wastewater and improve the smell of wastewater.
