

Wood Based Crushed Wastewater Treatment Activated Carbon For Deodorisation

Our Product Introduction

for more products please visit us on activatedcarbon-charcoal.com

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: Crushed Wastewater Treatment Activated Carbon
, Wood Based Wastewater Treatment Activated Carbon
, Wood Based Activated Carbon Deodorisation

Product Description

Wood-Based Crushed Activated Carbon / Deodorisation / Wastewater Treatment

Physical Properties

Wood-broken activated carbon usually has an irregular granular morphology, which helps to increase its mechanical strength and flowability.
It has a high specific surface area and a well-developed microporous structure, which enables it to adsorb molecules efficiently.

Application areas

Water treatment: In drinking water purification and wastewater treatment for the removal of organic pollutants, heavy metals, colours and other harmful substances.

Air purification: In air purifiers and industrial emission control for the removal of odours, fumes, volatile organic compounds (VOCs) and other air pollutants.

Chemical Recovery: In the chemical industry to recover solvents and capture other valuable chemicals.

Food Processing: In the production of food and beverages for decolourisation, deodorisation and removal of impurities.
