

Agricultural Activated Charcoal For Purifying Water Wastewater Filtration

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: Activated Charcoal For Purifying Water ,
Agricultural Activated Charcoal For Purifying Water

Product Description

Charcoal Guard For Purified Water / Agricultural Wastewater / Filtration

The main purpose of Charcoal Guard for Purified Water is to ensure the purity and safety of drinking water. This product uses the adsorption properties of activated carbon to effectively remove impurities, odours, residual chlorine, and some heavy metals and other harmful substances from the water, thus improving the quality of the water and making it more suitable for healthy drinking.

Charcoal Guard for Purified Water is usually installed in home or office water purification equipment as an important filtration barrier to protect people's drinking water safety. It can help reduce the health risks associated with contaminated water sources and give people greater peace of mind that they are enjoying clean, healthy drinking water.

In addition, the Charcoal Guard for Purified Water has a long service life and stable performance, and can continue to provide high-quality filtration results. It is also relatively easy to maintain, with regular replacement of the filter cartridge to keep it in good working order.
