

## Activated Carbon For Water Treatment Good Adsorption Capacity

### Our Product Introduction

for more products please visit us on [activatedcarbon-charcoal.com](http://activatedcarbon-charcoal.com)

#### Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T

#### Product Specification

- CAS No: 64365-11-3
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Good Adsorption Capacity Activated Carbon, Water Treatment Activated Carbon**

## Product Description

### Activated Carbon For Water Treatment / Good Adsorption Capacity

#### 1,Powerful adsorption

Activated carbon has excellent adsorption capacity, which can quickly and effectively adsorb harmful gases such as formaldehyde, benzene, xylene, and odour molecules in the air. Whether it is the pungent smell in the newly renovated house, new car, or the odour in the kitchen and bathroom, activated carbon can strongly adsorb and create a fresh living environment for you.

#### 2,Natural and environmentally friendly materials

Made of high-quality natural materials, non-toxic, harmless, safe and environmentally friendly. Will not produce secondary pollution, friendly to human body and the environment. While purifying the air, it allows you to enjoy a healthy living space at ease.

#### 3,widely applicable scenes

Applicable to a variety of places, such as offices, cars, hospitals, and so on. Can be placed in the living room, bedroom and other large spaces. It can also be used to purify water, which is a multi-functional purification product.

#### 4,Long-lasting purification effect

The adsorption effect of activated carbon is durable and stable, and can maintain the purification effect for a long time. It does not need to be replaced frequently, saving costs.
