

## Coal Based Activated Carbon For Air Purification Natural Environmentally Friendly

### Our Product Introduction

for more products please visit us on [activatedcarbon-charcoal.com](http://activatedcarbon-charcoal.com)

#### Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

#### Product Specification

- CAS No: 7440-44-0
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Air Purification Coal Based Activated Carbon, Environmentally Friendly Coal Based Activated Carbon**

## Product Description

### Coal Based Activated Carbon For Air Purification Natural Environmentally Friendly

In air treatment, granulated activated carbon plays a crucial role in removing odors, volatile organic compounds (VOCs), and other airborne pollutants. It can be used in air purifiers and filtration systems to create a healthier breathing environment. Whether it's eliminating unpleasant smells from a kitchen, reducing fumes in a workshop, or improving the air quality in a commercial space, granulated activated carbon is highly effective.

This product is known for its durability and long service life. It can be easily integrated into existing water and air treatment systems, providing a reliable and consistent performance. With its high adsorption capacity and ability to handle large volumes of contaminants, granulated activated carbon is an indispensable tool for maintaining clean water and air.

Choose granulated activated carbon as the essential ingredient for your water and air treatment needs and enjoy the benefits of a purified environment
