

Repeatedly Regenerated Coal Based Activated Carbon For Chemical And Gas Purification

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 7440-44-0
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Repeatedly Regenerated Coal Based Activated Carbon**
, Chemical Coal Based Activated Carbon,
Gas Purification Coal Based Activated Carbon

Product Description

Repeatedly Regenerated Coal Based Activated Carbon For Chemical And Gas Purification

Industrial Sector:

In manufacturing processes where water quality is crucial, such as the electronics industry. It helps remove impurities that could damage sensitive components during production.

Food and beverage industries employ coal based activated carbon to treat water for use in production, ensuring that the water is free from contaminants that could affect the taste, quality, and safety of products.

Municipal Water Treatment:

Water treatment plants utilize it to remove organic compounds, pesticides, and other pollutants from drinking water sources. It helps improve the taste and odor of water and makes it safe for consumption.

It can also be used in the treatment of wastewater to reduce the levels of pollutants before the water is discharged back into the environment.

Swimming Pools and Spas:

Used to filter and purify water, removing impurities and chemicals to maintain a clean and healthy swimming environment.
