Activated Charcoal Pellets Your Reliable Solution For Air And Water Purification

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Air Purification Activated Charcoal Pellets**, **Reliable Solution Activated Charcoal Pellets**, **Water Purification Activated Charcoal Pellets**

Product Description

Activated Charcoal Pellets Your Reliable Solution For Air And Water Purification

For air purification, these pellets work wonders by adsorbing a wide range of pollutants, odors, and harmful substances. They can trap volatile organic compounds (VOCs), smoke particles, and even some allergens, providing you with cleaner and fresher air to breathe.

In water purification, they are equally impressive. Activated charcoal pellets have a large surface area and excellent adsorption properties, allowing them to remove impurities such as chlorine, pesticides, heavy metals, and organic compounds from water.

This results in cleaner, safer, and better-tasting water.

They can be used in various water filtration systems, from simple pitchers to complex industrial setups.

These pellets are easy to use and maintain. They can be added to existing filtration systems or used as standalone purifiers.
