

Chemically Inert Activated Charcoal Pellets For Various Environments

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Chemically Inert Activated Charcoal Pellets,
Various Environments Activated Charcoal
Pellets
, Various Environments Charcoal Pellets**

Product Description

Chemically Inert Activated Charcoal Pellets for Various Environments

These pellets are designed to be highly stable and unreactive with other substances, making them ideal for a wide range of applications.

In industrial settings, they can be used to purify air and water without the risk of reacting with chemicals present in the process. This makes them safe for use in manufacturing plants, laboratories, and other facilities where chemical reactions are common.

For environmental remediation, chemically inert activated charcoal pellets can be used to absorb pollutants and contaminants from soil and water.

In residential and commercial settings, it can be used in air purifiers and water filtration systems to improve indoor air quality and provide clean drinking water.

They are effective at removing odors, allergens, and harmful substances, creating a healthier living and working environment.

The chemically inert nature of these activated charcoal pellets also makes them easy to handle and store.

They do not degrade or react with other materials over time, ensuring their long-term effectiveness.
