

Industrial Strength Activated Charcoal Pellets For Chemical Industry Solvent Recovery

Our Product Introduction

for more products please visit us on activatedcarbon-charcoal.com

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: Solvent Recovery Activated Charcoal Pellets,
Industrial Strength Activated Charcoal Pellets,
Chemical Industry Activated Charcoal Pellets

Product Description

Industrial Strength Activated Charcoal Pellets for Chemical Industry Solvent Recovery

These pellets are specifically designed to handle the demanding requirements of the chemical industry. With their high adsorption capacity and durability, they are capable of effectively capturing and recovering solvents from industrial processes.

The activated charcoal pellets have a large surface area, which allows them to adsorb a significant amount of solvent molecules. This not only helps in reducing solvent waste but also contributes to environmental sustainability by minimizing emissions.

In the chemical industry, solvent recovery is essential for cost reduction and compliance with environmental regulations. Industrial strength activated charcoal pellets offer a reliable and efficient solution for this purpose. They can be integrated into existing solvent recovery systems or used as standalone units.
