

Wood Powder Activated Carbon / Water Treatment Chemicals

Our Product Introduction

for more products please visit us on activatedcarbon-charcoal.com

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Wood Powder Activated Carbon,
Water Treatment Chemicals Activated Carbon**

Product Description

Wood Powder Activated Carbon / Water Treatment Chemicals

Wood powder activated carbon is a highly effective water treatment chemical that offers numerous benefits. Derived from natural wood sources, it is a sustainable and eco-friendly option for purifying water.

This activated carbon has a large surface area and porous structure, which allows it to adsorb a wide range of contaminants from water. It can remove organic compounds, heavy metals, pesticides, and other pollutants, improving the quality of water.

In water treatment processes, wood powder activated carbon can be used in various applications. It can be added to filtration systems to enhance the removal of impurities.

It can also be used in adsorption columns or as a part of advanced water treatment technologies.
