

## Clean Air For Industrial Facilities Wood Based Activated Carbon Solutions

### Our Product Introduction

#### Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

#### Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Clean Air Activated Carbon,  
Wood Based Activated Carbon Solutions,  
Industrial Facilities Activated Carbon**

## Product Description

### Clean Air For Industrial Facilities Wood Based Activated Carbon Solutions

Wood based activated carbon offers a powerful solution for achieving clean air in industrial facilities. As industries strive to meet environmental regulations and protect the health of workers and the surrounding community, wood based activated carbon emerges as a reliable and effective tool.

The unique properties of wood based activated carbon make it ideal for air purification in industrial settings. Its large surface area and porous structure enable it to adsorb a wide range of pollutants, including volatile organic compounds (VOCs), odors, and particulate matter.

By installing wood based activated carbon filtration systems, industrial facilities can significantly reduce airborne contaminants and improve indoor air quality. This not only creates a healthier work environment but also helps to minimize the impact of industrial emissions on the surrounding atmosphere.
