

Powerful Granular Activated Carbon for Industrial Chemical Treatment and Filtration

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Filtration Granular Activated Carbon, Industrial Chemical Treatment Granular Activated Carbon , Powerful Granular Activated Carbon**

Product Description

Powerful Granular Activated Carbon for Industrial Chemical Treatment and Filtration

In industrial chemical treatment, it acts as a highly effective adsorbent, removing impurities, contaminants, and unwanted byproducts. Its robust adsorption capabilities ensure that the chemical processes are optimized and the final products meet the highest quality standards.

For filtration purposes, this granular activated carbon offers superior performance. It can filter out fine particles, suspended solids, and dissolved substances, providing clean and clear filtrates. It is particularly useful in applications where strict purity requirements are essential.

The granular form of this activated carbon provides several benefits. It has a larger surface area for adsorption compared to powdered forms, while still being easy to handle and install in filtration systems. It also offers better flow characteristics and reduced pressure drop.
