

## Highly Customization Pulverized Coal Activated Carbon For Water And Air

### Our Product Introduction

#### Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

#### Product Specification

- CAS No: 64365-11-3
- Purity: 99.99%
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Pulverized Coal Activated Carbon,  
Customization Pulverized Coal Activated  
Carbon**

## Product Description

### Highly Customization Pulverized Coal Activated Carbon For Water And Air

Designed to meet diverse purification needs, it can be tailored to specific requirements. For water purification, it effectively removes impurities, odors, and contaminants, ensuring clean and safe drinking water. In air purification applications, it absorbs harmful gases, volatile organic compounds (VOCs), and odors, improving indoor air quality.

With its high adsorption capacity and customizable properties, this activated carbon is a versatile solution for various industries and applications. Whether it's for industrial water treatment plants, municipal water supply systems, or home air purifiers, it can be adjusted to achieve optimal purification results.

The pulverized form allows for easy integration into existing filtration systems or as a standalone purification medium. It can be used in different filtration stages or combined with other purification methods for enhanced performance.
