

Effective Adsorption With Industrial Activated Carbon Powder

Our Product Introduction

Basic Information

- Place of Origin: Datong, Shanxi, China
- Brand Name: Xinyue
- Minimum Order Quantity: 1 Ton
- Packaging Details: 500kg/bag , 25kg/bag
- Payment Terms: T/T
- Supply Ability: 100,000 Ton/Tons per Year

Product Specification

- CAS No: 64365-11-3
- Type: Adsorbent
- Iodine Number: 800-1200mg/g
- Ash: <12
- Moisture: <5%
- EINECS No: 264-846-4
- Package: 500kg/bag Or 25kg/bag
- Hardness: >95%
- Highlight: **Effective Adsorption Industrial Activated Carbon Powder**
, Industrial Activated Carbon Powder,
Industrial Activated Carbon Powder Adsorption

Product Description

Effective Adsorption With Industrial Activated Carbon Powder

The unique structure of the activated carbon powder enables it to attract and hold a wide range of molecules, including organic compounds, heavy metals, and other contaminants. It acts as a powerful adsorbent, effectively removing impurities from gases, liquids, and even some solid matrices.

In industrial applications, this activated carbon powder finds extensive use in diverse fields such as water treatment, air purification, and chemical processing.

In water treatment, it can eliminate harmful pollutants, odors, and colors, resulting in purified water that meets strict quality standards.

For air purification, it helps to capture and remove volatile organic compounds (VOCs), toxic gases, and particulate matter, improving the air quality in industrial environments.
